STRETCH YOUR IMAGINATION

Fimma Solid Surface Idea:

Fimma acrylic solid surface is a Seamlessly, multifunctional, unlimited creativity and design which is always a prefectly idea for both commercial and residential applications. The 12mm sheets can be bent and shaped during the fabrication and cut onsite with most standard saws. Fimma color palette follows the latest design trends and combined with a range of textures and colours that are guaranteed to suit any interior space and style like counter tops, bathroom sink bowl, wall cladding, shelf, table top and many more.

Features:

- Hygienic
Low VOC content and non-porous ensures optimum hygiene and antibacterial protections.
- Durable
Resistant to stain, mold, chemicals, scratch and heat, easily maintained.
- Reliable colour tone and texture
Offers uniform colour and texture across the entire surface which can maintain the visually appealing.
- Fit for Food
Tested and certified by the national sanitation for food safety and food contact for its use in places where food is being prepared.
- Versatility
Can be easily shaped to provide absolute freedom in design everything according to your personal preferences.
- Renewable and warranty
Provide 10 years limited warranty and it can be easily repaired.
